## DECISION IS REVERSED

Case of State of Minnesota vs. the Northern Securities Co. Before Supreme Court.

## GOES BACK TO STATE COURT

Matter Stands as It Was When Suit First Began—Circuit Court Did Not Have Jurisdiction.

(By Associated Press.)

WASHINGTON, D. C., April 11.—The United States Supreme Court today decided the case of the State of Minnesota vs. the Northern Securities Company and the Northern Pacific and Great Northern Railway Companies, involving the validity of the merger of the two companies, holding that it was without jurisdiction and reversing the opinion of the circuit court.

Justice Harlan, who delivered the opinion, said that the circuit court should not have entertained jurisdiction in the case, the effect being to remand the case to the state courts.

Justice Harlan called attention to the fact that the proceeding was for the purpose of enforcing both the state laws and the federal antitrust act, saying that the circuit court could not have taken jurisdiction if only the state statutes had been involved. Taking up the federal law and analyzing its provisions, he said it was clear that the case did not belong to any of the classes provided for by that law.

The contention that the case involved proprietary interests of the state, was not allowed to influence the opinion. On that point, the court and the majority was in most only remote and indirect.

The court also refused to hold that Minnesota's dignity or rights as a state would be affected under article IV of the federal constitution by permitting the stock of corporations of the state to be held by an outside corporation like the Securities Company. Justice Harlan said the court did not think that the article of the constitution had any bearing whatever on the question.

The reasons stated, we are of the opinion that the suit does not use the words of the act of 1875—really and substantially involve a dispute on controversy within the jurisdiction of the circuit court for the purpose of final decree. That being the case, the circuit court find the mandate of the state should not have proceeded therein, but should have remanded the case to the state court.

The decree of the circuit court is reversed and the case is sent back with directions that it be remanded to the state court.

The opinion of the court was unanimous.

Back to State Courts.

(By Associated Press.)

ST. PAUL, MINN., April 11.—The Supreme Court decision in the case of Minnesota against the railway merger, is considered by the state's legal officers a virtual victory for the state, although it puts the litigation back exactly where it was when the suit first began. This was the original suit against the merger and began before the federal government began its action. It was transferred from the state to the federal district judge Lochren, in the federal district court, assumed jurisdiction and decided the case on its merits against the state. The United States Supreme Court now says virtually that Judge Lochren should not have assumed jurisdiction and should have remanded the case to the state court, by the laws of Minnesota. The suit now goes back to the state courts.

(Continued from First Page.)

Company, as it might cause the committee to lessen the appropriation for a government exhibit.

He Wants Appropriation.

Giles B. Jackson, colored, of Richmond, director-general of the Negro Development and Exposition Company of the United States of America, which proposes to have an exhibit at the exposition, appeared before the Committee on Appropriations this morning in behalf of the bill introduced by Representative Lamb at a request of Jackson some time ago, providing for an appropriation of twelve hundred thousand dollars for the several hundred thousand dollars in the treasury due to negroes and the families of such as were entitled to bounty for enlistment in the United States army. Giles addressed the committee briefly, but he had close attention as he proceeded to the negro exhibit, which had been accomplished by the negro since he was given his freedom, and a copy of his petition, setting forth the facts

## Blood Troubles

Bad blood is the source of numerous aches and pains and the cause of nearly all stubborn, long-continued diseases. When the blood gets out of order, disease germs and poisons of various kinds find their way into the circulation and some serious trouble is the result. Rheumatism, Malaria, Old Sores and Ulcers, Scrofula, Anemia, and many pustular or sealy skin eruptions, like Eczema, and their beginning in bad blood, and only a remedy that enters into the circulation and destroys the germs and poisons, can have any permanent good effect upon a disease of this character.

You can't check a blood disease by any external treatment; the sores and eruptions that appear upon the surface of the body are only manifestations or symptoms of some internal disorder that cannot be reached from the outside. S. S. S. antidotes the poisons, humors and acids that are the real cause of disease, cleanses and enriches the blood, and builds up at the same time the general health. S. S. S. invigorates all the organs and parts of the system to greater activity, and strong nerves and renewed health is the result. If you have any blood trouble, write us. No charge for medical advice.

embodied in his speech, was filed with the committee.

Some Surprising Figures.

Jackson said that the negroes of the country, in the course of the past forty years, had accumulated about forty million dollars' worth of church property and built 10,000 churches, with a seating capacity of six million. There are 1,500 negro children in the public schools; 4,000 negro students in the higher institutions of learning; 30,000 negro teachers; 25,000 negro pupils learning trades; 1,200 negro students pursuing classical courses; 1,250 pursuing scientific courses; 1,500 pursuing business courses, and there are said to be in this country 20,000 negroes who are graduates of institutions of learning. Giles continues that there are negro libraries in this country to the value of \$250,000; there are negro farms worth \$90,000,000; their homes \$750,000, and their personal property \$172,000,000. The race owns 5,000,000 acres of land in the South alone.

Growth in Virginia.

The statement says, regarding Virginia, that the negro down there, according to the auditor's report, is acquiring real estate at the rate of about 50,000 acres a year, and that he pays taxes on \$17,422,277 worth of realty and personally every year.

The statement says further that the Virginia darkey has accumulated in forty years one-sixteenth of all the land east of the Blue Ridge; that he owns one-tenth of all the land in twenty-five out of the one hundred counties of the state; he owns one-seventh of Middlesex county; one-sixth of Hanover county; and one-third of Charles City county.

The statement says further that in the year 1880 the negroes of Virginia produced 13,724,742 bushels of corn; 4,345,010 bushels of wheat; 1,508,021 bushels of oats; total, 19,320,773 bushels of grain.

Giles said after the hearing that he was confident that he would receive an appropriation, though it might be delayed until the next session.

DELIGHTFUL EVENING.

Attractive Exercises Marked the Heptasoph Celebration.

The fifth anniversary of Heptasoph, Conclude, No. 69, Improved Order of Heptasoph, was held in an appropriate manner last night. The spacious rooms of Marshall Hall, corner of Broad and

Twenty-fifth Streets were filled with members and friends of the confraternity.

Mr. John B. Welsh was the orator of the evening, and in an eloquent address of welcome spoke of the advantages and benefits of the order. The next number on the programme were several band selections by Mr. Eugene B. Davis, followed by solos by Mr. Henry Rogers, recitation by Miss Lillie Fischer, solos by Miss Lillie Savage, an address by Mr. Thomas B. Hicks, supreme representative of the Improved Order of Heptasoph, a solo by Mr. William Fahn, character sketches by Messrs. Freeman and Wilson, selections by Mr. Thomas B. Hicks. Each number on the programme was heartily endorsed by the audience. At the close of the exercises refreshments were served, and the celebration was concluded with dancing in the ball room on the second floor of the hall.

## MASS AT ST. PETER'S

Pope Pius Celebrates Thirteenth

Centennial of St. Gregory

the Great.

70,000 PEOPLE PRESENT

The Sistine Choir, Consisting of

Twelve Hundred Voices, Boys,

Rendered Gregorian Chant.

(By Associated Press.)

ROME, April 11.—For the first time since his coronation the Pope went today to St. Peter's to say mass in celebration of the thirteenth centennial of St. Gregory the Great.

The immense basilica of St. Peter's was filled, more than 70,000 people being present. The Pope was in the best of health. He appeared in the Soeda Gestatoria, although the motion of this chair, carried on the shoulders of bearers makes him ill.

On his express recommendation the audience refrained from applause or crying out, contenting themselves with the waving of handkerchiefs.

The Sistine Choir, directed by Abbe Perosi, who, together with Maestro Bella, has been his organizer and instructor for today's Gregorian chant, had a special box nearest the throne, while grouped around it were twelve hundred youths of practically every nationality, race and color, belonging to the ecclesiastical colleges at Rome. The benedictine monks who formed the choir, were also located here.

THE POPE ARRIVES.

The arrival of Pope Pius was heralded by a blare of silver trumpets. Although the procession was as gorgeous as ever, the bright red of the cardinal's gown, mingling with the brown of the monks' robes and the white gowns of the choir, the benignant figure of the Pope under the gorgeous canopy, the picturesque ostrich fans and the glittering helmets of the guards, its reception seemed cold after the frantic applause permitted by Pope Leo.

After a brief halt in the chapel of the Sacrament, the Pope proceeded to the throne. The triple crown was placed on his head by Cardinal Jaechl. Immediately after the crowning, the Pontiff celebrated mass to the accompaniment of the Gregorian Chant, which echoed solemnly throughout the vast basilica.

The simple Gregorian chant, forming an immense volume like one voice with tremor, produced a remarkable effect in St. Peter's, which it is considered difficult to obtain in small churches. The merits for the success goes to Abbe Perosi, the prime mover in the introduction of the Gregorian chant.

ARREST OF EDDIE FAY SOLVES THE MYSTERY

(By Associated Press.)

CHICAGO, Ill., April 11.—With the arrest of Eddie Fay, Postoffice Inspector James B. Stuart thinks the mystery as to the identity of the men who some months ago robbed the Chicago postoffice of \$74,000 in stamps has been fully cleared up. Inspector Stuart said today that he was sure Fay planned the whole affair and profited most by it.

Of the others implicated in the robbery "Bud" Houlihan, is in the penitentiary at Raleigh, N. C.; Tom Burk and "Austrian Mac" are now at large and "Joe" Hopkins is dead, having been killed by "Dan" Kiple in a fight over a woman.

Wedding Cards.

(Special to The Times-Dispatch.)

ORANGE, VA., April 11.—Cards are out for the marriage of Miss Elsie Rhoads, well known daughter of Mr. and Mrs. B. O. Halsey, president of the Citizens National Bank of this place, to Mr. John Richard Kirby, of Suffolk, Va., Wednesday evening, April 13. The ceremony will be performed at "Eastern," the beautiful home of the bride.

RALEIGH, N. C., April 11.—The

Pain in Chest Sore Lungs Grip

How easy it is to catch cold. How quickly it changes in Grip, Pneumonia and Consumption! Many deaths are caused in the beginning by a slight cold.

Hamlin's WIZARD OIL

There is only one Wizard Oil—Hamlin's—made in the U. S. A. It is the only one that will break up a cold on the lungs in a night. It should be applied when the first symptoms appear. Rub the chest well with the medicine, lay upon it a piece of flannel wet with Hamlin's Wizard Oil and cover over with flannel bandage. No ordinary cold can withstand this treatment. Apply it at night just before retiring and in the morning the cold will be broken up.

Richard W. Thornton, Oursay, Col., writes April 29, 1902: "My little girl, aged two years, has suffered more or less since her birth with the trouble became serious. We tried remedies of several kinds and they seemed to give no relief. Hamlin's Wizard Oil to me and after the use of one bottle she has become entirely well. I can never be without Hamlin's Wizard Oil in my house. I cannot recommend it too highly."

## TURK BURIED AT RALEIGH

Many Prominent Railway Men

Attend the Funeral of Southern Official.

WAS A NATIVE OF VIRGINIA

After Being Educated in This

State He Went to Railroad-ing and Advanced.

The passenger offices of the Southern

Railway in this city were draped yesterday as a mark of respect to the memory of Mr. William A. Turk, passenger traffic manager of the Southern Railway, whose death in Washington was chronicled in The Times-Dispatch of Sunday.

The announcement of the death of Mr. Turk was a surprise to his friends throughout this State and North Carolina.

Mr. Turk was a native of Augusta county, Va., which has given to the country many men prominent in the professions and in business lines. He was born there fifty-three years ago. Mr. Turk was educated at Roanoke College and, after graduation, located in Charlotte, N. C., but soon afterward removed to Raleigh and became engaged in railway work. He was assistant general passenger and freight agent of the Western North Carolina Railway, and from this position became assistant general passenger agent of the Richmond and Danville Railway and retained that post after the reorganization of the Richmond and Danville system into the present Southern Railway. Soon after the reorganization, he was promoted to general passenger agent of the general system and remained in that position for ten or twelve years. Two years ago the business of the system became so great that the position of passenger traffic manager, one with large powers and responsibilities was created, and Mr. Turk was promoted to that position. He had been at the bottom and forced his way upward by the sheer force of his competency and ability, to which he owed his advancement.

Mr. Turk was long a resident of Raleigh, though located in many cities in Washington. He regarded the North Carolina capital as his home, and it was to that place that his body was taken yesterday for interment at the Washington Sunday night, bearing the body and the funeral party. The obsequies and burial were held yesterday afternoon at the Washington National Cemetery. Rev. Dr. Matthews officiating. Among the pall-bearers was Vice-President A. B. Andrews, of the railway, and other of his personal friends.

Those accompanying the body from Washington were Mrs. Turk, Miss Margaret Turk, Mr. Rudolf Turk, Colonel B. S. Turk, editor of the Staunton Spectator, of Staunton, Va., a brother of Colonel Turk; Mrs. R. S. Turk; Mr. George Little, of Raleigh; Dr. McKee, of Raleigh; C. H. Ackert, general manager of the Southern Railway; H. H. Long, and prominent business men of the city. Mr. J. P. McIntire, purchasing agent; Colonel L. S. Brown, Colonel Gordon, Mr. E. D. Doolan, superintendent of construction; J. M. Culp, fourth vice-president; S. H. Hardwick, general passenger agent; Mr. S. B. Thompson, general agent; Mr. S. B. Cardwell, assistant general freight agent of Columbia, S. C.; D. E. Winstead, who was Colonel Turk's attorney in Philadelphia; J. J. Pence, correspondent of the Raleigh Post; C. B. Ryan, general passenger agent of the Southern Railway; Mr. J. B. Dr. E. Berkeley, of Staunton; Mr. E. Hutchins, of Memphis; Joseph Richardson, of Atlanta.
